Dear Parents

Greetings!

It was noticed that the students are carrying all the books to school, which in turn is burdening the students with weight.

To reduce this, we would like to inform you that on the days of examination, the students are only supposed to bring the notebooks of the respective subject as per the scheduled examination routine.

In regular classes, they are required to bring the textbooks and notebooks as per the provided routine. A comprehensive notebook should be carried to school on regular basis.

It is essential for all the students to attend both the Online and the Offline Examinations.

School timing for the offline examination is 7:45 am to 1:00 pm.

The dispersal of supervision students will initiate from 12:40 pm onwards
